SUBJECT INDEX TO VOLUME 61*
(January-June 2005)

A

Abscess
- EUS-guided drainage of hepatic abscess (Seewald et al). 2005;61:495-8 (Brief report)
- Posttraumatic splenic abscess with gastrosplenic fistula (Nikolaidis et al). 2005;61:771-2 (Brief report)
- Successful endoscopic management of a cervical pharyngeal perforation and mediastinal abscess (Hookey et al). 2005;61:158-60 (Case report)
- Why did colonic abscess occur? (Matsushita and Okazaki) (Letter); (Chen and Wang) (Response). 2005;61:499

Acquired immunodeficiency syndrome (AIDS)
- Endoscopic appearance of GI mycobacteriosis caused by the *Mycobacterium avium* complex in a patient with AIDS: case report and review (Sun et al). 2005;61:775-9 (Brief report)

Addison disease
- Esophageal melanocytosis in the setting of Addison's disease (Jones et al). 2005;61:485-7 (Brief report)

Adenocarcinoma
- Cancer in familial adenomatous polyposis (Uragami et al). 2005;61:104 (At the focal point)
- Duodenocolic fistula (Penner et al). 2005;61:108-9 (At the focal point)
- Gastric stump carcinoma (Kimura et al). 2005; 61:595 (At the focal point)
- Intraductal tubular adenocarcinoma of the pancreas diagnosed before surgery by transpapillary biopsy: case report and review (Ito et al). 2005;61:325-9 (Case report)
- Jejunal adenocarcinoma (Hong et al). 2005; 61:430-1 (At the focal point)
- Right hemicolectomy remains the treatment of choice for adenocarcinoma of the appendix (Cirocco) (Letter); (Shami and Waxman) (Response). 2005;61:791-2
- Signet-ring-cell adenocarcinoma arising from a hyperplastic polyp in the stomach (Fry et al). 2005;61:493-5 (Brief report)

Adenoma
- 18-Fluorodeoxyglucose positron emission tomography has limited sensitivity for colonic adenoma and early stage colon cancer (Friedland et al). 2005;61:395-400
- Esophageal, submucosal, gland duct adenoma: role of EUS for endoscopic removal (Matsushita and Okazaki) (Letter); (Chinen et al) (Response). 2005;61:790-1
- Right hemicolectomy remains the treatment of choice for adenocarcinoma of the appendix (Cirocco) (Letter); (Shami and Waxman) (Response). 2005;61:791-2
- Wire-guided endoscopic snare papillectomy for tumors of the major duodenal papilla (Moon et al). 2005;61:461-6 (New methods)

Adenomatous polyposis coli
- A prospective trial comparing wireless capsule endoscopy and barium contrast series for small-bowel surveillance in hereditary GI polyposis syndromes (Mata et al). 2005;61:721-5
- Cancer in familial adenomatous polyposis (Uragami et al). 2005;61:104 (At the focal point)

Adenomyoma
- Adenomyoma of the minor duodenal papilla (Fukuda et al). 2005;61:475-9 (Case report)

Alcohol-induced disorders
- Self-administered alcohol (vodka) enema causing severe colitis: case report and review (Mian et al). 2005;61:922-6 (Brief report)

Allopurinol
- High-dose allopurinol for prevention of post-ERCP pancreatitis: a prospective randomized double-blind controlled trial (Katsinelos et al). 2005;61:407-15

American Society for Gastrointestinal Endoscopy (ASGE); *see* ASGE guidelines/technology assessments

Anastomosis, surgical
- Endoscopic treatment of thoracic esophageal anastomotic leaks by using silicone-covered, self-expanding polyester stents (Schubert et al). 2005;61:891-6 (Case study)
- Experimental studies of transgastric gallbladder surgery: cholecystectomy and cholecystogastric anastomosis (videos) (Park et al). 2005; 61:601-6 (New methods)
- Treatment of esophageal perforations and anastomotic leaks: the endoscopist is stepping into the arena (Siersema). 2005;61:897-900 (Editorial)

Anesthesiology
- Propofol in endoscopy: why higher risk? (Kumar) (Letter). 2005;61:794

Angioneurotic edema
- Hereditary angioedema involving the colon: endoscopic appearance and review of GI manifestations (Koruth et al). 2005;61:907-11 (Case report)

Anisakiasis
- Serologic test for the diagnosis of subclinical gastric anisakiasis (Matsushita and Okazaki) (Letter); (Shiomi et al) (Response). 2005; 61:931
- Vanishing gastric tumor caused by anisakiasis (Nakanishi et al). 2005;61:102 (At the focal point)

Appendiceal neoplasms
- Right hemicolectomy remains the treatment of choice for adenocarcinoma of the appendix (Cirocco) (Letter); (Shami and Waxman) (Response). 2005;61:791-2

Appendix
- Endoscopic visualization of an inverted appendix (Coronel et al). 2005;61:430 (At the focal point)
- Giant appendicolith (Keating and Memon). 2005;61:292-3 (At the focal point)

Appointments and schedules
- A prospective study of factors that determine cecal intubation time at colonoscopy (Bernstein et al). 2005;61:72-5

Argon plasma coagulation
- Argon plasma coagulation therapy for refractory ulcerative colitis (Yarze) (Letter); (Dumortier et al) (Response). 2005;61:353-4
- Randomized trial of argon plasma coagulation vs. multipolar electrocoagulation for ablation of Barrett's esophagus (Dulai et al). 2005;61:232-40
- The better burn (Sampliner). 2005;61:241-2 (Editorial)
- Watermelon colon treated by argon plasma coagulation (Chen et al). 2005;61:631-3 (Brief report)

Ascites
- PEG placement in patients with ascites: a new approach (Wejda et al). 2005;61:178-80 (Brief report)

ASGE guidelines/technology assessments
- ASGE guideline: complications of EUS (American Society for Gastrointestinal Endoscopy). 2005; 61:8-12
- ASGE guideline: guidelines for credentialing and granting privileges for capsule endoscopy (American Society for Gastrointestinal Endoscopy). 2005;61:503-5
- ASGE guideline: guidelines for endoscopy in pregnant and lactating women (American Society for Gastrointestinal Endoscopy). 2005;61:357-62
- ASGE guideline: the management of low-molecular-weight heparin and nonaspirin antiplatelet agents for endoscopic procedures (American Society for Gastrointestinal Endoscopy). 2005;61:189-94
- ASGE guideline: the role of endoscopy in the diagnosis, staging, and management of colorectal cancer (American Society for Gastrointestinal Endoscopy). 2005;61:1-7
- ASGE guideline: the role of endoscopy in the diagnosis and the management of cystic lesions and inflammatory fluid collections of the pancreas (American Society for Gastrointestinal Endoscopy). 2005;61:363-70

Aspiration
- Placement of a jejunal enteral tube through a percutaneous endoscopic jejunostomy to prevent recurrent aspiration during intestinal feeding (Luttmann et al). 2005;61:492-3 (Brief report)

B

Balloon dilatation; *see* Dilatation

Barium
- A prospective trial comparing wireless capsule endoscopy and barium contrast series for small-bowel surveillance in hereditary GI polyposis syndromes (Mata et al). 2005;61:721-5
- Dysphagia drives doctors to diagnose a disease: pitfalls in interpreting observational studies (Rubinstein and Inadomi). 2005;61:809-11 (Editorial)

Barrett's esophagus
- A randomized crossover study comparing light-induced fluorescence endoscopy with standard videoendoscopy for the detection of early neoplasia in Barrett's esophagus (Kara et al). 2005;61:671-8
- Autofluorescence imaging: Have we finally seen the light? (Wang and Triadafilopoulos). 2005; 61:686-8 (Editorial)
- Endoscopic treatment of high-grade dysplasia and early stage cancer in Barrett's esophagus (Peters et al). 2005;61:506-14
- Endoscopic video autofluorescence imaging may improve the detection of early neoplasia in patients with Barrett's esophagus (Kara et al). 2005;61:679-85
- Feasibility and safety of string, wireless capsule endoscopy in the diagnosis of Barrett's esophagus (Ramirez et al). 2005;61:741-6 (New methods)
- Optimization of light dosimetry for photodynamic therapy of Barrett's esophagus: efficacy vs. incidence of stricture after treatment (Panjehpour et al). 2005;61:13-18

*January, pp. 1-188; February, pp. 189-356; March, pp. 357-502; April, pp. 503-642; May, pp. 643-794; June, pp. 795-958.

Visible endoscopic and histologic changes in the cardia, before and after complete Barrett's esophagus ablation (Weston et al). 2005; 61:515-21

Bezoars
Association of eosinophilic inflammation with esophageal food impaction in adults (Desai et al). 2005;61:795-801
Enterocutaneous fistula complicating a duodenal bezoar: an unusual presentation (Elhajj et al). 2005;61:877-8 (At the focal point)
Eosinophil: the new lord of (esophageal) rings (Katzka). 2005;61:802-3 (Editorial)

Bile duct diseases
Spontaneous rupture of a biliary diverticulum in the distal common bile duct, with formation of a retroperitoneal biloma (Takahashi et al). 2005;61:783-7 (Brief report)

Bile duct obstruction; *see* Cholestasis

Bile ducts
The effect on porcine bile duct of a metallic stent covered with a paclitaxel-incorporated membrane (Lee et al). 2005;61:296-301 (New methods)

Biliary tract
Biliary fascioliasis (Cheung et al). 2005;61:596-7 (At the focal point)
Cholecystocholedochal fistula (Nguyen et al). 2005;61:876 (At the focal point)
Impact of endoscopic intervention in 100 patients with suspected postcholecystectomy bile leak (Kaffes et al). 2005;61:269-75
Postcholecystectomy bile leak: what is the optimal treatment? (Huang and Lichtenstein). 2005;61:276-8 (Editorial)

Biliary tract neoplasms
Adenomyoma of the minor duodenal papilla (Fukuda et al). 2005;61:475-9 (Case report)
Efficacy and complications of covered Wallstents in malignant distal biliary obstruction (Kahaleh et al). 2005;61:528-33
Metal stents for distal biliary malignancy: have we got you covered? (Carr-Locke). 2005;61:534-6 (Editorial)

Biopsy
Breakage of disposable biopsy forceps: a rare complication during endoscopy (Yoshikawa et al). 2005;61:918-9 (Brief report)
Chronic diarrhea: to biopsy or not to biopsy (Schiller). 2005;61:376-7 (Editorial)
Colonic biopsy practice for evaluation of diarrhea in patients with normal endoscopic findings: results from a national endoscopic database (Harewood et al). 2005;61:371-5
EUS-guided biopsy in the diagnosis of pulmonary lymphoma in patient with an esophagopulmonary fistula (Storch et al). 2005;61:904-6 (Case report)
EUS-guided Trucut biopsy in establishing autoimmune pancreatitis as the cause of obstructive jaundice (Levy et al). 2005;61:467-72 (Case study)
Fatal air and bile embolism after percutaneous liver biopsy and ERCP (Siddiqui et al). 2005;61:153-7 (Case report)
Intraductal tubular adenocarcinoma of the pancreas diagnosed before surgery by transpapillary biopsy: case report and review (Ito et al). 2005;61:325-9 (Case report)

Biopsy, needle; *see* Fine needle aspiration

Bladder neoplasms
EUS features of recurrent transitional cell bladder cancer metastatic to the GI tract (Yusuf et al). 2005;61:314-16 (Case study)

Botulinum toxins
Endoscopic pyloric injection of botulinum toxin A for the treatment of refractory gastroparesis (Bromer et al). 2005;61:833-9

Bowel preparation
Impact of colonic cleansing on quality and diagnostic yield of colonoscopy: the European Panel of Appropriateness of Gastrointestinal Endoscopy European multicenter study (Froehlich et al). 2005;61:378-84
Improved capsule endoscopy after bowel preparation (Dai et al). 2005;61:28-31

Bronchial fistula
Bronchogastric fistula (Lee et al). 2005;61:289-90 (At the focal point)

C

Capsule endoscopy
A prospective trial comparing wireless capsule endoscopy and barium contrast series for small-bowel surveillance in hereditary GI polyposis syndromes (Mata et al). 2005;61:721-5
A prospective two-center study comparing wireless capsule endoscopy with intraoperative enteroscopy in patients with obscure GI bleeding (Hartmann). 2005;61:826-32
ASGE guideline: guidelines for credentialing and granting privileges for capsule endoscopy (American Society for Gastrointestinal Endoscopy). 2005;61:503-5
Bleeding polyp in the mid small intestine identified by capsule endoscopy and treated by double-balloon endoscopy (Kita et al). 2005; 61:628-9 (Brief report)

Does the "Suspected Blood Indicator" improve the detection of bleeding lesions by capsule endoscopy? (D'Halluin et al). 2005;61:243-9
Electromagnetic interference with implantable cardiac pacemakers by video capsule (Dubner et al). 2005;61:250-4
Feasibility and safety of string, wireless capsule endoscopy in the diagnosis of Barrett's esophagus (Ramirez et al). 2005;61:741-6 (New methods)
Improved capsule endoscopy after bowel preparation (Dai et al). 2005;61:28-31
Overtube-assisted placement of wireless capsule endoscopy device (Quan et al). 2005;61:914-6 (Case report)

Carcinoid tumor
Carcinoid mimicking ileal Crohn's disease (Parente et al). 2005;61:105-6 (At the focal point)
Carcinoid of major duodenal papilla (Niido et al). 2005;61:106-7 (At the focal point)

Carcinoma
Gastric stump carcinoma (Kimura et al). 2005;61:595 (At the focal point)
Giant esophageal papilloma (Odze) (Letter); (Eguchi et al) (Response). 2005;61:499-501
Precancerous mucosal changes in the gallbladder of patients with occult pancreatobiliary reflux (Sai et al). 2005;61:264-8

Carcinoma, squamous cell
Local recurrence of squamous-cell carcinoma of the esophagus after EMR (Katada et al). 2005;61:219-25

Catheters, indwelling
Duodenal hemorrhage caused by catheter tip dislocation (Abe et al). 2005;61:103 (At the focal point)

Cholangiography

Endoscopic resection of Peutz-Jeghers polyps throughout the small intestine at double-balloon enteroscopy without laparotomy (Ohmiya et al). 2005;61:140-7 (New methods)
Predictive factors of positive findings in patients explored by push enteroscopy for unexplained GI bleeding (Lepère et al). 2005;61:709-14
Enteryx
Complications involving the mediastinum after injection of Enteryx for GERD (Wong et al). 2005;61:753-6 (Case report)
Enteryx implantation for GERD: expanded multicenter trial results and interim postapproval follow-up to 24 months (Cohen et al). 2005;61:650-8
Eosinophilia
Association of eosinophilic inflammation with esophageal food impaction in adults (Desai et al). 2005;61:795-801
Eosinophil: the new lord of (esophageal) rings (Katzka). 2005;61:802-3 (Editorial)
Eosinophilic esophagitis in a father and a daughter (Meyer) (Letter). 2005;61:932
Three brothers with dysphagia caused by eosinophilic esophagitis (Patel and Falchuk). 2005;61:165-7 (Case report)
ERCP; *see* Cholangiopancreatography, endoscopic retrograde (ERCP)
Esophageal and gastric varices
A simple technique for maximal tip deflection of an upper endoscopy (Hisatomi et al). 2005;61:183-5 (Brief report)
Endoscopic ligation vs. sclerotherapy in adults with extrahepatic portal venous obstruction: a prospective randomized study (Zargar et al). 2005;61:58-66
Fundal variceal hemorrhage treated by endoscopic clip (Arantes and Albuquerque). 2005;61:732 (At the focal point)
Septic complications after variceal cyanoacrylate injection (Yarze) (Letter); (Lammer et al) (Response). 2005;61:186
Splenic infarction complicated by splenic artery occlusion after N-butyl-2-cyanoacrylate injection for gastric varices: case report (Yu et al). 2005;61:343-5 (Brief report)
Esophageal diseases
Dissecting intramural hematoma of the esophagus after thrombolysis for myocardial infarction (Huddy et al). 2005;61:340-3 (Brief report)

Formulas for calculating the depth of insertion for the upper and lower esophageal sphincters (Wilson et al) (Letter). 2005;61:793-4
The frequency of Barrett's esophagus in high-risk patients with chronic GERD (Westhoff et al). 2005;61:226-31

Esophageal diverticulum
Mid esophageal diverticulum with a bleeding ulcer: case report and review (Helft et al). 2005;61:759-62 (Case report)

Esophageal fistula
Closure of a benign tracheoesophageal fistula by using a coated, self-expanding plastic stent in a patient with a history of esophageal atresia (Adler and Pleskow). 2005;61:765-8 (Case report)
EUS-guided biopsy in the diagnosis of pulmonary lymphoma in a patient with an esophagopulmonary fistula (Storch et al). 2005;61:904-6 (Case report)
Impact of a self-expanding, plastic esophageal stent on various esophageal stenoses, fistulas, and leakages: a single-center experience in 39 patients (Radecke et al). 2005;61:812-8

Esophageal neoplasms
Do physician attitudes and practices limit the use of EUS in the staging and the treatment of esophageal carcinoma? (McClave et al). 2005; 61:840-8
Endoscopic treatment of high-grade dysplasia and early stage cancer in Barrett's esophagus (Peters et al). 2005;61:506-14
Esophageal, submucosal, gland duct adenoma: role of EUS for endoscopic removal (Matsushita and Okazaki) (Letter); (Chinen et al) (Response). 2005;61:790-1
Flat-type primary malignant melanoma of the esophagus treated by EMR: case report (Kimura et al). 2005;61:787-9 (Brief report)
Giant esophageal papilloma (Odze) (Letter); (Eguchi et al) (Response). 2005;61:499-501
Impact of a self-expanding, plastic esophageal stent on various esophageal stenoses, fistulas, and leakages: a single-center experience in 39 patients (Radecke et al). 2005;61:812-8
Local recurrence of squamous-cell carcinoma of the esophagus after EMR (Katada et al). 2005;61:901-3
Primary esophageal B-cell lymphoma: evaluation by EUS (Soon et al). 2005;61:901-3 (Case report)
Use of a transparent hood to facilitate photodynamic therapy of esophageal neoplasms (Yarze) (Letter). 2005;61:350
Visible endoscopic and histologic changes in the cardia, before and after complete Barrett's esophagus ablation (Weston et al). 2005; 61: 515-21

Esophageal spasm, diffuse
Balloon dilation in patients with diffuse esophageal spasm (Storr) (Letter). 2005,61:501

Esophageal stenosis
Endoscopic incision of a refractory esophageal stricture: novel management with an endoscopic scissors (Beilstein and Kochman). 2005;61:623-5 (Brief report)
Impact of a self-expanding, plastic esophageal stent on various esophageal stenoses, fistulas, and leakages: a single-center experience in 39 patients (Radecke et al). 2005;61:812-8
Optimization of light dosimetry for photodynamic therapy of Barrett's esophagus: efficacy vs. incidence of stricture after treatment (Panjehpour et al). 2005;61:13-18
Successful recanalization of a completely obliterated esophageal stricture by using an endoscopic rendezvous maneuver (Baumgart et al). 2005;61:473-5 (Case report)

Esophagitis
Association of eosinophilic inflammation with esophageal food impaction in adults (Desai et al). 2005;61:795-801
Atypical herpes simplex esophagitis (Wong and Abdul-Karim). 2005;61:291-2 (At the focal point)
Eosinophil: the new lord of (esophageal) rings (Katzka). 2005;61:802-3 (Editorial)
Eosinophilic esophagitis in a father and a daughter (Meyer) (Letter). 2005;61:932
Three brothers with dysphagia caused by eosinophilic esophagitis (Patel and Falchuk). 2005;61:165-7 (Case report)

Esophagogastroduodenoscopy (EGD)
A simple technique for maximal tip deflection of an upper endoscopy (Hisatomi et al). 2005;61:183-5 (Brief report)
Breakage of disposable biopsy forceps: a rare complication during endoscopy (Yoshikawa et al). 2005;61:918-9 (Brief report)
Feasibility and safety of string, wireless capsule endoscopy in the diagnosis of Barrett's esophagus (Ramirez et al). 2005;61:741-6 (New methods)
Other factors affecting patient tolerance and acceptance of unsedated upper-GI endoscopy (Chong and Rajendran) (Letter); (Ristikankare et al) (Response). 2005;61:638-9
Premedication with orally administered midazolam in adults undergoing diagnostic upper endoscopy: a double-blind placebo-controlled randomized trial (Mui et al). 2005;61:195-200
The yield and the predictors of esophageal pathology when upper endoscopy is used for the initial evaluation of dysphagia (Varadarajulu). 2005;61:804-8

Esophagus
A magnified endoscopic view of esophageal melanocytosis (Mori et al). 2005;61:479-81 (Case report)
Asymptomatic esophageal perforation after foreign body ingestion (and SilvaAhluwalia). 2005; 61:615-19 (Case report)
Congenital esophageal duplication (Yoshida et al) (Letter). 2005;61:350-2
Esophageal melanocytosis in the setting of Addison's disease (Jones et al). 2005;61:485-7 (Brief report)
Esophageal perforation by cervical fixation device (Lee et al). 2005;61:295 (At the focal point)
Severe chest pain from an indwelling Bravo pH probe (Triester et al). 2005;61:317-19 (Case report)

Ethanol
Ethanol lavage of pancreatic cystic lesions: initial pilot study (Gan et al). 2005;61:746-52 (New methods)
Self-administered alcohol (vodka) enema causing severe colitis: case report and review (Mian et al). 2005;61:922-6 (Brief report)

F

Fallopian tubes
Peroral transgastric endoscopic ligation of fallopian tubes with long-term survival in a porcine model (Jagannath et al). 2005;61:449-53 (Technical review)

Fasciitis, necrotizing
Necrotizing fasciitis after direct percutaneous endoscopic jejunostomy (Chong and Delegge). 2005;61:912-13 (Case report)

Fascioliasis
Biliary fascioliasis (Cheung et al). 2005;61:596-7 (At the focal point)

Fibrin tissue adhesive
Fibrin glue, healing of gastric mucosal injury, and expression of growth factors: results from a human in vivo study (Becker et al). 2005; 61:560-7

Fibroblast growth factor
Fibrin glue, healing of gastric mucosal injury, and expression of growth factors: results from a human in vivo study (Becker et al). 2005; 61:560-7

Fine needle aspiration
A first report of tumor seeding because of EUS-guided FNA of a pancreatic adenocarcinoma (Paquin et al). 2005;61:610-11 (Case report)
Diagnosis of pancreatic cystic lymphangioma with EUS-guided FNA: report of a case (Jathal et al). 2005;61:920-2 (Brief report)
Differential diagnosis of pancreatic cancer and focal pancreatitis by using EUS-guided FNA (Takahashi et al). 2005;61:76-9
Endoscopic US for metastases to the pancreas: chasing the satellites (Baron). 2005;61:697-9 (Editorial)
EUS-guided FNA of pancreatic metastases: a multicenter experience (DeWitt et al). 2005;61:689-96
EUS-guided FNA of solid pancreatic masses: a learning curve with 300 consecutive procedures (Eloubeidi and Tamhane). 2005;61: 700-8
Pancreatic FNA in 1000 cases: a comparison of imaging modalities (Volmar et al). 2005; 61:854-61
The utility of EUS-guided FNA in the diagnosis of metastatic breast cancer to the esophagus and the mediastinum (Sobel et al). 2005;61: 416-20

Fistula
Bronchogastric fistula (Lee et al). 2005;61:289-90 (At the focal point)
Cholecystocholedochal fistula (Nguyen et al). 2005;61:876 (At the focal point)
Closure of a benign tracheoesophageal fistula by using a coated, self-expanding plastic stent in a patient with a history of esophageal atresia (Adler and Pleskow). 2005;61:765-8 (Case report)
Colocutaneous fistula caused by a self-expanding metallic stent (Sario-Inocencio and Ho). 2005; 61:633-6 (Brief report)
Duodenocolic fistula (Penner et al). 2005; 61:108-9 (At the focal point)
Enterocutaneous fistula complicating a duodenal bezoar: an unusual presentation (Elhajj et al). 2005;61:877-8 (At the focal point)
Gastroduodenal fistula caused by ingested magnets (Ohno et al). 2005;61:109-10 (At the focal point)
Spontaneous rupture of a biliary diverticulum in the distal common bile duct, with formation of a retroperitoneal biloma (Takahashi et al). 2005;61:783-7 (Brief report)

Fluorescence endoscopy
A randomized crossover study comparing light-induced fluorescence endoscopy with standard videoendoscopy for the detection of early neoplasia in Barrett's esophagus (Kara et al). 2005;61:671-8

Autofluorescence imaging: have we finally seen the light? (Wang and Triadafilopoulos). 2005;61:686-8 (Editorial)
Endoscopic video autofluorescence imaging may improve the detection of early neoplasia in patients with Barrett's esophagus (Kara et al). 2005;61:679-85

Food parasitology
Vanishing gastric tumor caused by anisakiasis (Nakanishi et al). 2005;61:102 (At the focal point)

Foreign bodies
Asymptomatic esophageal perforation after foreign body ingestion (and SilvaAhluwalia). 2005;61:615-19 (Case report)
Gastroduodenal fistula caused by ingested magnets (Ohno et al). 2005;61:109-10 (At the focal point)

Formaldehyde
Endoscopic and histopathologic findings after formalin application for hemorrhage caused by chronic radiation-induced proctitis (Konishi et al). 2005;61:161-4 (Case report)

Fundoplication
Endoscopic full-thickness plication for the treatment of GERD: 12-month follow-up for the North American open-label trial (Pleskow et al). 2005;61:643-9
Endotherapy for GERD: angels and demons (Triadafilopoulos). 2005;61:668-70 (Editorial)
Long-term outcomes of endoluminal gastroplication: a U.S. multicenter trial (Chen et al). 2005;61:659-67

G

Gadolinium
Use of a neutral gadolinium chelate as a contrast medium for ERCP: case report (Maluf-Filho et al). 2005;61:917-8 (Brief report)

Gallbladder diseases
Endoscopic stent insertion into the gallbladder for symptomatic gallbladder disease in patients with end-stage liver disease (Conway et al). 2005;61:32-6

Gallbladder neoplasms
Precancerous mucosal changes in the gallbladder of patients with occult pancreatobiliary reflux (Sai et al). 2005;61:264-8

Gallstones
Impacted biliary basket (Cid and Lobo). 2005;61:110-11 (At the focal point)

Gastric balloon
Intragastric balloon for treatment-resistant obesity: safety, tolerance, and efficacy of 1-year balloon treatment followed by a 1-year balloon-free follow-up (Mathus-Vliegen and Tytgat). 2005;61:19-27

Gastric fistula
Bronchogastric fistula (Lee et al). 2005;61:289-90 (At the focal point)
Posttraumatic splenic abscess with gastrosplenic fistula (Nikolaidis et al). 2005;61:771-2 (Brief report)

Gastric outlet obstruction
Endoscopy or surgery for malignant GI outlet obstruction? (Del Piano et al). 2005;61:421-6

Gastritis
Phlegmonous gastritis: case report and review (Kim et al). 2005;61:168-74 (Case report)

Gastroenterologists
Assessment of the impact of an educational course on knowledge of appropriate EUS indications (Harewood et al). 2005;61:554-9
Gastroenterologists as surgeons: what they need to know (Ponsky). 2005;61:454 (Editorial)
The pathway to academic success starts during fellowship (Lewis). 2005;61:587-8 (The fellows' corner)
Training with the compactEASIE biologic endoscopy simulator significantly improves hemostatic technical skill of gastroenterology fellows: a randomized controlled comparison with clinical endoscopy training alone (Hochberger et al). 2005;61:204-15

Gastroesophageal reflux (GERD)
Complications involving the mediastinum after injection of Enteryx for GERD (Wong et al). 2005;61:753-6 (Case report)
Endoscopic full-thickness plication for the treatment of GERD: 12-month follow-up for the North American open-label trial (Pleskow et al). 2005;61:643-9
Endotherapy for GERD: angels and demons (Triadafilopoulos). 2005;61:668-70 (Editorial)
Enteryx implantation for GERD: expanded multicenter trial results and interim postapproval follow-up to 24 months (Cohen et al). 2005;61:650-8
Long-term outcomes of endoluminal gastroplication: a U.S. multicenter trial (Chen et al). 2005;61:659-67
Severe chest pain from an indwelling Bravo pH probe (Triester et al). 2005;61:317-19 (Case report)
The frequency of Barrett's esophagus in high-risk patients with chronic GERD (Westhoff et al). 2005;61:226-31

Gastrointestinal stromal tumors (GIST)
Bleeding stromal tumor (Giesler et al). 2005;61:593 (At the focal point)
Neoadjuvant therapy with imatinib mesylate for locally advanced GI stromal tumor (Shah et al). 2005;61:625-7 (Brief report)

Gastroparesis
Endoscopic pyloric injection of botulinum toxin A for the treatment of refractory gastroparesis (Bromer et al). 2005;61:833-9
Temporary gastric electrical stimulation with orally or PEG-placed electrodes in patients with drug refractory gastroparesis (Ayinala et al). 2005;61:455-61 (New methods)

Gastroplasty
Removal of a gastroplasty ring (Hookey et al). 2005;61:594 (At the focal point)

Gastrostomy, percutaneous endoscopic (PEG); *see also* Enteral nutrition
Efficacy of an overtube for reducing the risk of peristomal infection after PEG placement: a prospective, randomized comparison study (Maetani et al). 2005;61:522-7
Liver injury during PEG tube placement: report of two cases (Gubler et al). 2005;61:346-8 (Brief report)
PEG placement in patients with ascites: a new approach (Wejda et al). 2005;61:178-80 (Brief report)

Glycerol
Effectiveness of glycerol as a submucosal injection for EMR (Uraoka et al). 2005;61:736-40 (New methods)

Grant writing
Grant writing and academic survival: what the fellow needs to know (Davidson). 2005;61:726-7 (The fellows' corner)

Guidelines; *see* ASGE guidelines/technology assessments

H

Heart-assist devices
Gastric ulceration and perforation as a complication of a left ventricular assist device (Hou et al). 2005;61:629-31 (Brief report)
Heat probe coagulation; *see* Thermocoagulation

Hematoma
Dissecting intramural hematoma of the esophagus after thrombolysis for myocardial infarction (Huddy et al). 2005;61:340-3 (Brief report)

Hemoclips; *see* Clips

Hemorrhage
A prospective two-center study comparing wireless capsule endoscopy with intraoperative enteroscopy in patients with obscure GI bleeding (Hartmann). 2005;61:826-32
Bleeding stromal tumor (Giesler et al). 2005;61:593 (At the focal point)
Capsule endoscopy in obscure occult vs. obscure overt GI bleeding (Apostolopoulos et al) (Letter). 2005;61:187-8
Does the "Suspected Blood Indicator" improve the detection of bleeding lesions by capsule endoscopy? (D'Halluin et al). 2005;61:243-9
Duodenal and gastric Dieulafoy's lesions in a patient with type 2A von Willebrand's disease (Marchese et al). 2005;61:322-5 (Case report)
Duodenal hemorrhage caused by catheter tip dislocation (Abe et al). 2005;61:103 (At the focal point)
Endoscopic and histopathologic findings after formalin application for hemorrhage caused by chronic radiation-induced proctitis (Konishi et al). 2005;61:161-4 (Case report)
Endoscopic band ligation for rectal variceal bleeding: serial colonoscopic images (Soon et al). 2005;61:734-5 (At the focal point)
Fundal variceal hemorrhage treated by endoscopic clip (Arantes and Albuquerque). 2005;61:732 (At the focal point)
Mid esophageal diverticulum with a bleeding ulcer: case report and review (Helft et al). 2005;61:759-62 (Case report)
Post-sphincterotomy bleeding after the introduction of microprocessor-controlled electrosurgery: Does the new technology make the difference? (Perini et al). 2005;61:53-7
Predictive factors of positive findings in patients explored by push enteroscopy for unexplained GI bleeding (Lepère et al). 2005;61:709-14
Predictors of utilization of early colonoscopy vs. radiography for severe lower intestinal bleeding (Strate and Syngal). 2005;61:46-52

Hemostasis
Bleeding polyp in the mid small intestine identified by capsule endoscopy and treated by double-balloon endoscopy (Kita et al). 2005;61:628-9 (Brief report)
Training with the compactEASIE biologic endoscopy simulator significantly improves hemostatic technical skill of gastroenterology fellows: a randomized controlled comparison with clinical endoscopy training alone (Hochberger et al). 2005;61:204-15
Watermelon colon treated by argon plasma coagulation (Chen et al). 2005;61:631-3 (Brief report)

Heparin
ASGE guideline: the management of low-molecular-weight heparin and nonaspirin antiplatelet agents for endoscopic procedures (American Society for Gastrointestinal Endoscopy). 2005;61:189-94

Hereditary diseases
Eosinophilic esophagitis in a father and a daughter (Meyer) (Letter). 2005;61:932
Herpes simplex
Atypical herpes simplex esophagitis (Wong and Abdul-Karim). 2005;61:291-2 (At the focal point)

I

Ileocecal valve
Isolated ileocecal lymphoma (Song et al). 2005;61:293-4 (At the focal point)
Ileum
Correlation of endoscopic optical coherence tomography with histology in the lower-GI tract (Westphal et al). 2005;61:537-46
Imatinib mesylate
Neoadjuvant therapy with imatinib mesylate for locally advanced GI stromal tumor (Shah et al). 2005;61:625-7 (Brief report)
Infection control
Efficacy of an overtube for reducing the risk of peristomal infection after PEG placement: a prospective, randomized comparison study (Maetani et al). 2005;61:522-7
Infections
Phlegmonous gastritis: case report and review (Kim et al). 2005;61:168-74 (Case report)
Infections, opportunistic
Endoscopic appearance of GI mycobacteriosis caused by the *Mycobacterium avium* complex in a patient with AIDS: case report and review (Sun et al). 2005;61:775-9 (Brief report)
Inflammatory bowel diseases
Argon plasma coagulation therapy for refractory ulcerative colitis (Yarze) (Letter); (Dumortier et al) (Response). 2005;61:353-4
Infliximab
Diagnosis by EUS Trucut biopsy of extrapulmonary tuberculosis in a patient with Crohn's disease treated with infliximab (Gleeson et al). 2005;61:489-92 (Brief report)
Intestinal neoplasms
Isolated ileocecal lymphoma (Song et al). 2005;61:293-4 (At the focal point)
Jejunal adenocarcinoma (Hong et al). 2005;61:430-1 (At the focal point)
Intestinal obstruction
Intermittent small-bowel obstruction caused by gastric adenocarcinoma in a Meckel's diverticulum (Parente et al). 2005;61:180-3 (Brief report)
Routine colonoscopy complicated by small-bowel obstruction (Zanati et al). 2005;61:781-3 (Brief report)
Intussusception
Colocolic intussusception (Uradomo et al). 2005;61:432 (At the focal point)
Retrograde intussusception caused by a sigmoid colonic tumor: reduction by the use of a transanal drainage tube (Kitahara et al). 2005;61:482-4 (Case report)

J

Jaundice, obstructive
EUS-guided Trucut biopsy in establishing autoimmune pancreatitis as the cause of obstructive jaundice (Levy et al). 2005;61:467-72 (Case study)
Jejunostomy
Necrotizing fasciitis after direct percutaneous endoscopic jejunostomy (Chong and Delegge). 2005;61:912-3 (Case report)
Placement of a jejunal enteral tube through a percutaneous endoscopic jejunostomy to prevent recurrent aspiration during intestinal feeding (Luttmann et al). 2005;61:492-3 (Brief report)

K

Ketamine
Ketamine for pediatric endoscopic procedures and as a sedation complement for adult patients (Kirberg et al) (Letter). 2005;61:501-2

L

Lactation
ASGE guideline: guidelines for endoscopy in pregnant and lactating women (American Society for Gastrointestinal Endoscopy). 2005;61:357-62
Leiomyoma
Pedunculated leiomyoma (Han et al). 2005;61:429 (At the focal point)
Letters to the Editor
Argon plasma coagulation therapy for refractory ulcerative colitis (Yarze) (Letter); (Dumortier et al) (Response). 2005;61:353-4
Atypical EUS features of gastric inflammatory fibroid polyps (Matsushita and Okazaki) (Letter); (Aydin et al) (Response). 2005;61:637-8
Balloon dilation in patients with diffuse esophageal spasm (Storr) (Letter). 2005;61:501
Capsule endoscopy in obscure occult vs. obscure overt GI bleeding (Apostolopoulos et al) (Letter). 2005;61:187-8
Congenital esophageal duplication (Yoshida et al) (Letter). 2005;61:350-2
Endoscopic minor papilla interventions in patients without pancreas divisum (Tarnasky and Linder) (Letter); (Song et al) (Response). 2005;61:349-50
Eosinophilic esophagitis in a father and a daughter (Meyer) (Letter). 2005;61:932

Giant esophageal papilloma (Odze) (Letter); (Eguchi et al) (Response). 2005;61:499-501
Indications for ERCP in children with recurrent pancreatitis: predictive value of abdominal US and serum amylase levels (Castro et al) (Letter); (Varadarajulu) (Response). 2005;61:640-1
International survey of EUS practice (Lachter) (Letter); (Das and Chak) (Response). 2005;61:792-3
Ketamine for pediatric endoscopic procedures and as a sedation complement for adult patients (Kirberg et al) (Letter). 2005;61:501-2
Other factors affecting patient tolerance and acceptance of unsedated upper-GI endoscopy (Chong and Rajendran) (Letter); (Ristikankare et al) (Response). 2005;61:638-9
Pancreas divisum as the etiology of acute pancreatitis in children (DeBanto) (Letter); (Klein and Affronti) (Response). 2005;61:637
Propofol in endoscopy: Why higher risk? (Kumar) (Letter). 2005;61:794
Right hemicolectomy remains the treatment of choice for adenocarcinoma of the appendix (Cirocco) (Letter); (Shami and Waxman) (Response). 2005;61:791-2
Safety and efficacy of ERCP in pregnancy (Duseja et al) (Letter); (Kahaleh et al) (Response). 2005;61:352-3
Septic complications after variceal cyanoacrylate injection (Yarze) (Letter); (Lammer et al) (Response). 2005;61:186
Serologic test for the diagnosis of subclinical gastric anisakiasis (Matsushita and Okazaki) (Letter); (Shiomi et al) (Response). 2005;61:931
Use of a transparent hood to facilitate photodynamic therapy of esophageal neoplasms (Yarze) (Letter). 2005;61:350
What do we really know about the long-term safety of colonic tattooing? (Hellmig et al) (Letter). 2005;61:186-7
Why did colonic abscess occur? (Matsushita and Okazaki) (Letter); (Chen and Wang) (Response). 2005;61:499
Ligation
Endoscopic band ligation for rectal variceal bleeding: serial colonoscopic images (Soon et al). 2005;61:734-5 (At the focal point)
Endoscopic ligation vs. sclerotherapy in adults with extrahepatic portal venous obstruction: a prospective randomized study (Zargar et al). 2005;61:58-66
Peroral transgastric endoscopic ligation of fallopian tubes with long-term survival in a porcine model (Jagannath et al). 2005;61:449-53 (Technical review)
Lipoma
Detachable nylon loop assisted removal of large clinically significant colonic lipomas (Murray et al). 2005;61:756-9 (Case report)
Gastric submucosal tumor removal (Mah et al). 2005;61:290-1 (At the focal point)
Lithotripsy
Impacted biliary basket (Cid and Lobo). 2005;61:110-11 (At the focal point)
Liver abscess
EUS-guided drainage of hepatic abscess (Seewald et al). 2005;61:495-8 (Brief report)
Liver diseases
Endoscopic stent insertion into the gallbladder for symptomatic gallbladder disease in patients with end-stage liver disease (Conway et al). 2005;61:32-6
Liver neoplasms
A case of mucin hypersecreting intraductal papillary carcinomas occurring simultaneously in liver and pancreas (Yamaguchi et al). 2005;61:330-4 (Case report)
Lung neoplasms
EUS-guided biopsy in the diagnosis of pulmonary lymphoma in patient with an esophagopulmonary fistula (Storch et al). 2005;61:904-6 (Case report)
Lymphangioma
Diagnosis of pancreatic cystic lymphangioma with EUS-guided FNA: report of a case (Jathal et al). 2005;61:920-2 (Brief report)
Lymphatic diseases
Malignant mediastinal lymphadenopathy detected by staging EUS in patients with pancreaticobiliary cancer (Agarwal et al). 2005;61:849-53
Lymphoma
Characterization of secondary GI lesions with anaplastic large-cell (Ki-1) lymphoma: a first report of two cases (Matsumoto et al). 2005;61:607-9 (Case report)
Colonic mucosa-associated lymphoid tissue lymphoma presenting as multiple polyposis (Esteban et al). 2005;61:928-30 (Brief report)
Isolated ileocecal lymphoma (Song et al). 2005;61:293-4 (At the focal point)
Mantle-cell lymphoma of colon (Kram et al). 2005;61:294-5 (At the focal point)
Mantle-cell lymphoma (Sun et al). 2005;61:875 (At the focal point)

Primary esophageal B-cell lymphoma: evaluation by EUS (Soon et al). 2005;61:901-3 (Case report)

Lymphoproliferative disorders
Posttransplantation lymphoproliferative disorder (Anantharaju et al). 2005;61:288-9 (At the focal point)

M

Magnifying endoscopy
A magnified endoscopic view of esophageal melanocytosis (Mori et al). 2005;61:479-81 (Case report)
Magnification endoscopy (Sharma). 2005; 61:435-43 (Technical review)

Mass screening
A prospective study of the frequency and the topographical distribution of colon neoplasia in asymptomatic average-risk Chinese adults as determined by colonoscopic screening (Chiu et al). 2005;61:547-53
Quality and colonoscopy: a new imperative (Lieberman). 2005;61:392-4 (Editorial)
The optimal age threshold for screening upper endoscopy for uninvestigated dyspepsia in Taiwan, an area with a higher prevalence of gastric cancer in young adults (Liou et al). 2005;61:819-25

Meckel diverticulum
Double-balloon enteroscopy for diagnosis of a Meckel's diverticulum in a patient with GI bleeding of obscure origin (Gasbarrini et al). 2005;61:779-81 (Brief report)
Intermittent small-bowel obstruction caused by gastric adenocarcinoma in a Meckel's diverticulum (Parente et al). 2005;61:180-3 (Brief report)

Mediastinum
Complications involving the mediastinum after injection of Enteryx for GERD (Wong et al). 2005;61:753-6 (Case report)

Melanocytes
A magnified endoscopic view of esophageal melanocytosis (Mori et al). 2005;61:479-81 (Case report)
Esophageal melanocytosis in the setting of Addison's disease (Jones et al). 2005;61:485-7 (Brief report)

Melanoma
Flat-type primary malignant melanoma of the esophagus treated by EMR: case report (Kimura et al). 2005;61:787-9 (Brief report)
Panenteric melanosis: an ominous endoscopic finding (Kaplan et al). 2005;61:762-5 (Case report)

Melanosis
Panenteric melanosis: an ominous endoscopic finding (Kaplan et al). 2005;61:762-5 (Case report)

Melena
Predictive factors of positive findings in patients explored by push enteroscopy for unexplained GI bleeding (Lepère et al). 2005;61:709-14

Mentors
Basic research for the clinical trainee: from bedside to bench (Newberry). 2005;61:869-70 (The fellows' corner)
The pathway to academic success starts during fellowship (Lewis). 2005;61:587-8 (The fellows' corner)

Metastasis; *see* Neoplasm metastasis

Methylene blue
Magnification endoscopy (Sharma). 2005; 61:435-43 (Technical review)

Metoclopramide
Complete small-bowel transit in patients undergoing capsule endoscopy: determining factors and improvement with metoclopramide (Selby). 2005;61:80-5

Midazolam
From oral midazolam to propofol: a perspective (Geller). 2005;61:201-3 (Editorial)
Premedication with orally administered midazolam in adults undergoing diagnostic upper endoscopy: a double-blind placebo-controlled randomized trial (Mui et al). 2005;61:195-200

Mycobacterium avium
Endoscopic appearance of GI mycobacteriosis caused by the *Mycobacterium avium* complex in a patient with AIDS: case report and review (Sun et al). 2005;61:775-9 (Brief report)

N

Neoadjuvant therapy
Neoadjuvant therapy with imatinib mesylate for locally advanced GI stromal tumor (Shah et al). 2005;61:625-7 (Brief report)

Neoplasm metastasis
Endoscopic US for metastases to the pancreas: chasing the satellites (Baron). 2005;61:697-9 (Editorial)
EUS features of recurrent transitional cell bladder cancer metastatic to the GI tract (Yusuf et al). 2005;61:314-16 (Case study)
EUS-guided FNA of pancreatic metastases: a multicenter experience (DeWitt et al). 2005; 61:689-96
The utility of EUS-guided FNA in the diagnosis of metastatic breast cancer to the esophagus and the mediastinum (Sobel et al). 2005;61:416-20

Neoplasm seeding
A first report of tumor seeding because of EUS-guided FNA of a pancreatic adenocarcinoma (Paquin et al). 2005;61:610-11 (Case report)

Neoplasm staging
ASGE guideline: the role of endoscopy in the diagnosis, staging, and management of colorectal cancer (American Society for Gastrointestinal Endoscopy). 2005;61:1-7
Do physician attitudes and practices limit the use of EUS in the staging and the treatment of esophageal carcinoma? (McClave et al). 2005;61:840-8
Prospective evaluation of a jelly-like conducting medium for catheter US probe imaging of esophageal and duodenal lesions (Soon et al). 2005;61:133-9 (New methods)

Neoplasms
Carcinoid mimicking ileal Crohn's disease (Parente et al). 2005;61:105-6 (At the focal point)
Carcinoid of major duodenal papilla (Niido et al). 2005;61:106-7 (At the focal point)
Jejunal extramedullary plasmacytoma (Okamura et al). 2005;61:107-8 (At the focal point)

Neoplasms, cystic, mucinous, and serous
A case of mucin hypersecreting intraductal papillary carcinomas occurring simultaneously in liver and pancreas (Yamaguchi et al). 2005;61:330-4 (Case report)

O

Obesity
Intragastric balloon for treatment-resistant obesity: safety, tolerance, and efficacy of 1-year balloon treatment followed by a 1-year balloon-free follow-up (Mathus-Vliegen and Tytgat). 2005;61:19-27
Removal of a gastroplasty ring (Hookey et al). 2005;61:594 (At the focal point)

Ostomy; *see* Gastrostomy; Jejunostomy

P

Pacemaker, artificial
Electromagnetic interference with implantable cardiac pacemakers by video capsule (Dubner et al). 2005;61:250-4

Paclitaxel
The effect on porcine bile duct of a metallic stent covered with a paclitaxel-incorporated membrane (Lee et al). 2005;61:296-301 (New methods)

Pain
Endoscopic therapy for pain in chronic pancreatitis: is it time for the naysayers to throw in the towel? (Wilcox). 2005;61:582-6 (Editorial)

Pancreas divusum
Pancreas divisum as the etiology of acute pancreatitis in children (DeBanto) (Letter); (Klein and Affronti) (Response). 2005;61:637

Pancreatic cyst
Ethanol lavage of pancreatic cystic lesions: initial pilot study (Gan et al). 2005;61:746-52 (New methods)

Pancreatic diseases
Age-related changes in the pancreas identified by EUS: a prospective evaluation (Rajan et al). 2005;61:401-6
ASGE guideline: the role of endoscopy in the diagnosis and the management of cystic lesions and inflammatory fluid collections of the pancreas (American Society for Gastrointestinal Endoscopy). 2005;61:363-70

Pancreatic ducts
Age-related changes in the pancreas identified by EUS: a prospective evaluation (Rajan et al). 2005;61:401-6
Efficacy of main pancreatic-duct endoscopic drainage in patients with chronic pancreatitis, continuous pain, and dilated duct (Gabbrielli et al). 2005;61:576-81
Endoscopic minor papilla interventions in patients without pancreas divisum (Tarnasky and Linder) (Letter); (Song et al) (Response). 2005;61:349-50
Endoscopic therapy for pain in chronic pancreatitis: is it time for the naysayers to throw in the towel? (Wilcox). 2005;61:582-6 (Editorial)
Predictors of outcome in pancreatic duct disruption managed by endoscopic transpapillary stent placement (Varadarajulu et al). 2005;61:568-75

Pancreatic neoplasms
A case of mucin hypersecreting intraductal papillary carcinomas occurring simultaneously in liver and pancreas (Yamaguchi et al). 2005;61:330-4 (Case report)
A first report of tumor seeding because of EUS-guided FNA of a pancreatic adenocarcinoma (Paquin et al). 2005;61:610-11 (Case report)
Diagnosis of pancreatic cystic lymphangioma with EUS-guided FNA: report of a case (Jathal et al). 2005;61:920-2 (Brief report)
Differential diagnosis of pancreatic cancer and focal pancreatitis by using EUS-guided FNA (Takahashi et al). 2005;61:76-9
EUS-guided FNA of pancreatic metastases: a multicenter experience (DeWitt et al). 2005;61:689-96
EUS-guided FNA of solid pancreatic masses: a learning curve with 300 consecutive procedures (Eloubeidi and Tamhane). 2005;61700-8
Intraductal tubular adenocarcinoma of the pancreas diagnosed before surgery by transpapillary biopsy: case report and review (Ito et al). 2005;61:325-9 (Case report)

Malignant mediastinal lymphadenopathy detected by staging EUS in patients with pancreaticobiliary cancer (Agarwal et al). 2005;61:849-53
Wire-guided endoscopic snare papillectomy for tumors of the major duodenal papilla (Moon et al). 2005;61:461-6 (New methods)

Pancreatitis
Composition of clogging material in pancreatic endoprostheses (Farnbacher et al). 2005; 61:862-6
Differential diagnosis of pancreatic cancer and focal pancreatitis by using EUS-guided FNA (Takahashi et al). 2005;61:76-9
Efficacy of main pancreatic-duct endoscopic drainage in patients with chronic pancreatitis, continuous pain, and dilated duct (Gabbrielli et al). 2005;61:576-81
Endoscopic minor papilla interventions in patients without pancreas divisum (Tarnasky and Linder) (Letter); (Song et al) (Response). 2005;61:349-50
Endoscopic therapy for pain in chronic pancreatitis: is it time for the naysayers to throw in the towel? (Wilcox). 2005;61:582-6 (Editorial)
EUS-guided Trucut biopsy in establishing autoimmune pancreatitis as the cause of obstructive jaundice (Levy et al). 2005;61:467-72 (Case study)
High-dose allopurinol for prevention of post-ERCP pancreatitis: a prospective randomized double-blind controlled trial (Katsinelos et al). 2005;61:407-15
Indications for ERCP in children with recurrent pancreatitis: predictive value of abdominal US and serum amylase levels (Castro et al) (Letter); (Varadarajulu) (Response). 2005; 61:640-1
Noninvasive vs. selective invasive biliary imaging for acute biliary pancreatitis: an economic evaluation by using decision tree analysis (Romagnuolo and Currie). 2005;61:86-97
Pancreas divisum as the etiology of acute pancreatitis in children (DeBanto) (Letter); (Klein and Affronti) (Response). 2005;61:637
Predictors of outcome in pancreatic duct disruption managed by endoscopic transpapillary stent placement (Varadarajulu et al). 2005; 61:568-75
Successful treatment for groove pancreatitis by endoscopic drainage via the minor papilla (Isayama et al). 2005;61:175-8 (Case report)
Why do pancreatic stents become occluded? (Devière). 2005;61:867-8 (Editorial)

Papilloma
Giant esophageal papilloma (Odze) (Letter); (Eguchi et al) (Response). 2005;61:499-501

Parasitic diseases
Biliary fascioliasis (Cheung et al). 2005;61:596-7 (At the focal point)
Serologic test for the diagnosis of subclinical gastric anisakiasis (Matsushita and Okazaki) (Letter); (Shiomi et al) (Response). 2005; 61:931
Vanishing gastric tumor caused by anisakiasis (Nakanishi et al). 2005;61:102 (At the focal point)

Patient comfort
Other factors affecting patient tolerance and acceptance of unsedated upper-GI endoscopy (Chong and Rajendran) (Letter); (Ristikankare et al) (Response). 2005;61:638-9
Premedication with orally administered midazolam in adults undergoing diagnostic upper endoscopy: a double-blind placebo-controlled randomized trial (Mui et al). 2005;61:195-200

Pediatric gastroenterology
Endoscopic pyloromyotomy for congenital pyloric stenosis (Ibarguen-Secchia). 2005; 61:598-600 (New methods)
Indications for ERCP in children with recurrent pancreatitis: predictive value of abdominal US and serum amylase levels (Castro et al) (Letter); (Varadarajulu) (Response). 2005; 61:640-1
Ketamine for pediatric endoscopic procedures and as a sedation complement for adult patients (Kirberg et al) (Letter). 2005;61:501-2
Pancreas divisum as the etiology of acute pancreatitis in children (DeBanto) (Letter); (Klein and Affronti) (Response). 2005;61:637

PEG; *see* Gastrostomy, percutaneous endoscopic (PEG)

Perforation
A retrospective analysis of cecal barotrauma caused by colonoscope air flow and pressure (Woltjen). 2005;61:37-45
Asymptomatic esophageal perforation after foreign body ingestion (and SilvaAhluwalia). 2005;61:615-19 (Case report)
Endoscopic treatment of thoracic esophageal anastomotic leaks by using silicone-covered, self-expanding polyester stents (Schubert et al). 2005;61:891-6 (Case study)
Esophageal perforation by cervical fixation device (Lee et al). 2005;61:295 (At the focal point)
Esophageal sinus formation as a complication of cyanoacrylate injection (Wai et al). 2005; 61:773-5 (Brief report)
Gastric ulceration and perforation as a complication of a left ventricular assist device (Hou et al). 2005;61:629-31 (Brief report)
Successful endoscopic management of a cervical pharyngeal perforation and mediastinal abscess (Hookey et al). 2005;61:158-60 (Case report)
Treatment of esophageal perforations and anastomotic leaks: the endoscopist is stepping into the arena (Siersema). 2005;61:897-900 (Editorial)

Pericarditis
Life-threatening pericarditis after N-butyl-2-cyanoacrylate injection for esophageal variceal bleeding: case report (Chen et al). 2005; 61:487-9 (Brief report)

Personnel staffing and scheduling
A prospective study of factors that determine cecal intubation time at colonoscopy (Bernstein et al). 2005;61:72-5

Peutz-Jeghers syndrome
A prospective trial comparing wireless capsule endoscopy and barium contrast series for small-bowel surveillance in hereditary GI polyposis syndromes (Mata et al). 2005;61:721-5
Endoscopic resection of Peutz-Jeghers polyps throughout the small intestine at double-balloon enteroscopy without laparotomy (Ohmiya et al). 2005;61:140-7 (New methods)

pH monitoring
Formulas for calculating the depth of insertion for the upper and lower esophageal sphincters (Wilson et al) (Letter). 2005;61:793-4
Severe chest pain from an indwelling Bravo pH probe (Triester et al). 2005;61:317-19 (Case report)

Phototherapy
Endoscopic treatment of high-grade dysplasia and early stage cancer in Barrett's esophagus (Peters et al). 2005;61:506-14
Optimization of light dosimetry for photodynamic therapy of Barrett's esophagus: efficacy vs. incidence of stricture after treatment (Panjehpour et al). 2005;61:13-18
Use of a transparent hood to facilitate photodynamic therapy of esophageal neoplasms (Yarze) (Letter). 2005;61:350

Plasmacytoma
Jejunal extramedullary plasmacytoma (Okamura et al). 2005;61:107-8 (At the focal point)

Platelet aggregation inhibitors
ASGE guideline: the management of low-molecular-weight heparin and nonaspirin antiplatelet agents for endoscopic procedures (American Society for Gastrointestinal Endoscopy). 2005;61:189-94

Polypectomy
Impact of colonic cleansing on quality and diagnostic yield of colonoscopy: the European Panel of Appropriateness of Gastrointestinal Endoscopy European multicenter study (Froehlich et al). 2005;61:378-84
What do we really know about the long-term safety of colonic tattooing? (Hellmig et al) (Letter). 2005;61:186-7

Polyps
Analysis of colorectal cancer occurrence during surveillance colonoscopy in the dietary Polyp Prevention Trial (Pabby et al). 2005;61:385-91
Atypical EUS features of gastric inflammatory fibroid polyps (Matsushita and Okazaki) (Letter); (Aydin et al) (Response). 2005;61:637-8
Bleeding polyp in the mid small intestine identified by capsule endoscopy and treated by double-balloon endoscopy (Kita et al). 2005; 61:628-9 (Brief report)
Colonic mucosa-associated lymphoid tissue lymphoma presenting as multiple polyposis (Esteban et al). 2005;61:928-30 (Brief report)
EMR of a hyperplastic polyp arising in ectopic gastric mucosa in the cervical esophagus: case report (Oguma et al). 2005;61:335-8 (Brief report)
Pedunculated cap polyps preceding the development of cap polyposis: case report (Chinen et al). 2005;61:338-40 (Brief report)
Signet-ring-cell adenocarcinoma arising from a hyperplastic polyp in the stomach (Fry et al). 2005;61:493-5 (Brief report)

Portal vein
Endoscopic ligation vs. sclerotherapy in adults with extrahepatic portal venous obstruction: a prospective randomized study (Zargar et al). 2005;61:58-66

Precancerous conditions
Precancerous mucosal changes in the gallbladder of patients with occult pancreatobiliary reflux (Sai et al). 2005;61:264-8

Pregnancy
ASGE guideline: guidelines for endoscopy in pregnant and lactating women (American Society for Gastrointestinal Endoscopy). 2005; 61:357-62
Safety and efficacy of ERCP in pregnancy (Duseja et al) (Letter); (Kahaleh et al) (Response). 2005;61:352-3

Proctitis
Endoscopic and histopathologic findings after formalin application for hemorrhage caused by chronic radiation-induced proctitis (Konishi et al). 2005;61:161-4 (Case report)

Proctocolitis
Acute proctosigmoiditis caused by a dexamethasone mouthwash enema (Hill et al). 2005; 61:612-14 (Case report)

Propofol
From oral midazolam to propofol: a perspective (Geller). 2005;61:201-3 (Editorial)
Propofol in endoscopy: why higher risk? (Kumar) (Letter). 2005;61:794
Pyloric stenosis
Endoscopic pyloric injection of botulinum toxin A for the treatment of refractory gastroparesis (Bromer et al). 2005;61:833-9
Endoscopic pyloromyotomy for congenital pyloric stenosis (Ibarguen-Secchia). 2005; 61:598-600 (New methods)

Q

Quality of life
Endotherapy for GERD: angels and demons (Triadafilopoulos). 2005;61:668-70 (Editorial)
Enteryx implantation for GERD: expanded multicenter trial results and interim postapproval follow-up to 24 months (Cohen et al). 2005;61:650-8

R

Radiography
Predictors of utilization of early colonoscopy vs. radiography for severe lower intestinal bleeding (Strate and Syngal). 2005;61:46-52
Radiotherapy
Endoscopic and histopathologic findings after formalin application for hemorrhage caused by chronic radiation-induced proctitis (Konishi et al). 2005;61:161-4 (Case report)
Successful recanalization of a completely obliterated esophageal stricture by using an endoscopic rendezvous maneuver (Baumgart et al). 2005;61:473-5 (Case report)
Rectal diseases
Endoscopic band ligation for rectal variceal bleeding: serial colonoscopic images (Soon et al). 2005;61:734-5 (At the focal point)
Rectal endometriosis (Yoshida et al). 2005; 61:433-4 (At the focal point)
Research design
Basic research for the clinical trainee: from bedside to bench (Newberry). 2005;61:869-70 (The fellows' corner)
Proposing research questions (Clouse). 2005; 61:279-80 (The fellows' corner)

S

Safety
Safety and efficacy of ERCP in pregnancy (Duseja et al) (Letter); (Kahaleh et al) (Response). 2005;61:352-3
Sclerotherapy
Endoscopic ligation vs. sclerotherapy in adults with extrahepatic portal venous obstruction: a prospective randomized study (Zargar et al). 2005;61:58-66
Life-threatening pericarditis after N-butyl-2-cyanoacrylate injection for esophageal variceal bleeding: case report (Chen et al). 2005; 61:487-9 (Brief report)
Screening; *see* Mass screening
Sedation; *see* Conscious sedation
Sepsis
Septic complications after variceal cyanoacrylate injection (Yarze) (Letter); (Lammer et al) (Response). 2005;61:186
Serologic tests
Serologic test for the diagnosis of subclinical gastric anisakiasis (Matsushita and Okazaki) (Letter); (Shiomi et al) (Response). 2005; 61:931
Simulation
Endoscopic simulation: where we have been and where we are going (Sedlack). 2005;61:216-18 (Editorial)
Training with the compactEASIE biologic endoscopy simulator significantly improves hemostatic technical skill of gastroenterology fellows: a randomized controlled comparison with clinical endoscopy training alone (Hochberger et al). 2005;61:204-15
Small intestine; *see also* Duodenum; Ileum
Does the "Suspected Blood Indicator" improve the detection of bleeding lesions by capsule endoscopy? (D'Halluin et al). 2005;61:243-9
Specialists
Gastroenterologists as surgeons: what they need to know (Ponsky). 2005;61:454 (Editorial)
Sphincterotomy, endoscopic
Post-sphincterotomy bleeding after the introduction of microprocessor-controlled electrosurgery: does the new technology make the difference? (Perini et al). 2005;61:53-7
Splenic infarction
Splenic infarction complicated by splenic artery occlusion after N-butyl-2-cyanoacrylate injection for gastric varices: case report (Yu et al). 2005;61:343-5 (Brief report)
Stent migration
Removal of a gastroplasty ring (Hookey et al). 2005;61:594 (At the focal point)
Stents
Closure of a benign tracheoesophageal fistula by using a coated, self-expanding plastic stent in a patient with a history of esophageal atresia (Adler and Pleskow). 2005;61:765-8 (Case report)
Colocutaneous fistula caused by a self-expanding metallic stent (Sario-Inocencio and Ho). 2005;61:633-6 (Brief report)
Composition of clogging material in pancreatic endoprostheses (Farnbacher et al). 2005; 61:862-6
Efficacy and complications of covered Wallstents in malignant distal biliary obstruction (Kahaleh et al). 2005;61:528-33
Efficacy of main pancreatic-duct endoscopic drainage in patients with chronic pancreatitis, continuous pain, and dilated duct (Gabbrielli et al). 2005;61:576-81
Endoscopic stent insertion into the gallbladder for symptomatic gallbladder disease in patients with end-stage liver disease (Conway et al). 2005;61:32-6
Endoscopic treatment of thoracic esophageal anastomotic leaks by using silicone-covered, self-expanding polyester stents (Schubert et al). 2005;61:891-6 (Case study)
Endoscopy or surgery for malignant GI outlet obstruction? (Del Piano et al). 2005;61:421-6
Impact of a self-expanding, plastic esophageal stent on various esophageal stenoses, fistulas, and leakages: a single-center experience in 39 patients (Radecke et al). 2005;61:812-8
Metal stents for distal biliary malignancy: have we got you covered? (Carr-Locke). 2005; 61:534-6 (Editorial)
Predictors of outcome in pancreatic duct disruption managed by endoscopic transpapillary stent placement (Varadarajulu et al). 2005; 61:568-75
The effect on porcine bile duct of a metallic stent covered with a paclitaxel-incorporated membrane (Lee et al). 2005;61:296-301 (New methods)
Treatment of esophageal perforations and anastomotic leaks: the endoscopist is stepping into the arena (Siersema). 2005;61:897-900 (Editorial)
Why do pancreatic stents become occluded? (Devière). 2005;61:867-8 (Editorial)
Wire-guided endoscopic snare papillectomy for tumors of the major duodenal papilla (Moon et al). 2005;61:461-6 (New methods)
Stomach diseases
Gastric tuberculosis presenting as a submucosal tumor (Kim et al). 2005;61:319-22 (Case report)
Phlegmonous gastritis: case report and review (Kim et al). 2005;61:168-74 (Case report)
Serologic test for the diagnosis of subclinical gastric anisakiasis (Matsushita and Okazaki) (Letter); (Shiomi et al) (Response). 2005; 61:931
Stomach neoplasms
Atypical EUS features of gastric inflammatory fibroid polyps (Matsushita and Okazaki) (Letter); (Aydin et al) (Response). 2005;61:637-8
Characterization of secondary GI lesions with anaplastic large-cell (Ki-1) lymphoma: a first report of two cases (Matsumoto et al). 2005;61:607-9 (Case report)
Endoscopy or surgery for malignant GI outlet obstruction? (Del Piano et al). 2005;61:421-6
Gastric stump carcinoma (Kimura et al). 2005;61:595 (At the focal point)
Gastric submucosal tumor removal (Mah et al). 2005;61:290-1 (At the focal point)
Intermittent small-bowel obstruction caused by gastric adenocarcinoma in a Meckel's diverticulum (Parente et al). 2005;61:180-3 (Brief report)
Signet-ring-cell adenocarcinoma arising from a hyperplastic polyp in the stomach (Fry et al). 2005;61:493-5 (Brief report)
The optimal age threshold for screening upper endoscopy for uninvestigated dyspepsia in Taiwan, an area with a higher prevalence of gastric cancer in young adults (Liou et al). 2005;61:819-25
Visible endoscopic and histologic changes in the cardia, before and after complete Barrett's esophagus ablation (Weston et al). 2005; 61:515-21
Strictures/stenoses
Endoscopic incision of a refractory esophageal stricture: novel management with an endoscopic scissors (Beilstein and Kochman). 2005;61:623-5 (Brief report)
Impact of a self-expanding, plastic esophageal stent on various esophageal stenoses, fistulas, and leakages: a single-center experience in 39 patients (Radecke et al). 2005;61:812-8
Optimization of light dosimetry for photodynamic therapy of Barrett's esophagus: efficacy vs. incidence of stricture after treatment (Panjehpour et al). 2005;61:13-18
Successful recanalization of a completely obliterated esophageal stricture by using an endoscopic rendezvous maneuver (Baumgart et al). 2005;61:473-5 (Case report)
Surgical procedures, minimally invasive
Endoscopic full-thickness plication for the treatment of GERD: 12-month follow-up for the North American open-label trial (Pleskow et al). 2005;61:643-9
Experimental studies of transgastric gallbladder surgery: cholecystectomy and cholecystogastric anastomosis (videos) (Park et al). 2005;61:601-6 (New methods)

Gastroenterologists as surgeons: what they need to know (Ponsky). 2005;61:454 (Editorial)
Long-term outcomes of endoluminal gastroplication: a U.S. multicenter trial (Chen et al). 2005;61:659-67

T

Tattooing
What do we really know about the long-term safety of colonic tattooing? (Hellmig et al) (Letter). 2005;61:186-7

Thermocoagulation
Visible endoscopic and histologic changes in the cardia, before and after complete Barrett's esophagus ablation (Weston et al). 2005; 61:515-21

Thrombolytic therapy
Dissecting intramural hematoma of the esophagus after thrombolysis for myocardial infarction (Huddy et al). 2005;61:340-3 (Brief report)

Tomography
Correlation of endoscopic optical coherence tomography with histology in the lower-GI tract (Westphal et al). 2005;61:537-46
18-Fluorodeoxyglucose positron emission tomography has limited sensitivity for colonic adenoma and early stage colon cancer (Friedland et al). 2005;61:395-400
Endoscopic Doppler optical coherence tomography in the human GI tract: initial experience (Yang et al). 2005;61:879-90 (New methods)
Functional imaging of a colon polyp (Behari et al). 2005;61:733 (At the focal point)

Transplantation
Posttransplantation lymphoproliferative disorder (Anantharaju et al). 2005;61:288-9 (At the focal point)

Trauma
Posttraumatic splenic abscess with gastrosplenic fistula (Nikolaidis et al). 2005;61:771-2 (Brief report)

Tuberculosis
Diagnosis by EUS Trucut biopsy of extrapulmonary tuberculosis in a patient with Crohn's disease treated with infliximab (Gleeson et al). 2005;61:489-92 (Brief report)
Gastric tuberculosis presenting as a submucosal tumor (Kim et al). 2005;61:319-22 (Case report)

U

Ulcer
Fibrin glue, healing of gastric mucosal injury, and expression of growth factors: results from a human in vivo study (Becker et al). 2005; 61:560-7
Gastric ulceration and perforation as a complication of a left ventricular assist device (Hou et al). 2005;61:629-31 (Brief report)
Mid esophageal diverticulum with a bleeding ulcer: case report and review (Helft et al). 2005;61:759-62 (Case report)

Ultrasonography; *see* Endoscopic ultrasonography (EUS)

Ultrasonography, Doppler
Endoscopic Doppler optical coherence tomography in the human GI tract: initial experience (Yang et al). 2005;61:879-90 (New methods)

V

Varices; *see* Esophageal and gastric varices

Vater's ampulla; *see* Duodenal Papilla, Major

Video endoscopy; *see also* Capsule endoscopy
A randomized crossover study comparing light-induced fluorescence endoscopy with standard videoendoscopy for the detection of early neoplasia in Barrett's esophagus (Kara et al). 2005;61:671-8
Autofluorescence imaging: have we finally seen the light? (Wang and Triadafilopoulos). 2005; 61:686-8 (Editorial)
Endoscopic video autofluorescence imaging may improve the detection of early neoplasia in patients with Barrett's esophagus (Kara et al). 2005;61:679-85
Image documentation of endoscopic findings in ulcerative colitis: photographs or video clips? (de Lange et al). 2005;61:715-20
Randomized trial of a video headset vs. a conventional video monitor during colonoscopy (Lee et al). 2005;61:301-6 (New methods)

von Willebrand's disease
Duodenal and gastric Dieulafoy's lesions in a patient with type 2A von Willebrand's disease (Marchese et al). 2005;61:322-5 (Case report)

Z

Zenker diverticulum
Successful endoscopic management of a cervical pharyngeal perforation and mediastinal abscess (Hookey et al). 2005;61:158-60 (Case report)
